Role Play - Scenario

- A consortium of developers want to build a hotel and tourism infrastructure in the Belovezhskaya National Park.

- The regional administration has brought together a number of stakeholders to discuss what should be approved –
 - Should the hotel and infrastructure even be built?
 - What are the risks/benefits?
 - Where should it be built – in the park or out of the park?
 - Should something different be considered?

Stakeholders

- Regional Administration
- Hotel developer
- Park Administrators / Workers
- European Union official
- Polish Government official
- Environmental group
- Tour operators
- Local business group

Instructions

1. Choose a stakeholder to play.
2. If more than one person, meet with your colleague(s).
3. Discuss your stakeholder's position on the hotel and infrastructure proposition.
4. Prepare an opening statement.
5. Be prepared to debate, argue and counter-argue with the other stakeholders.
6. Attempt to create a plan that is acceptable to all stakeholders.
